Corona PC & Corona PCND Online Drippers

Ideal for: greenhouses and nurseries. PCND suitable for pulse irrigation applications

Offers a range of dependable online drippers in both PC and PCND models.

Features a self-flushing mechanism in each dripper that operates at start-up to help expel accumulated debris. Combined with a high-quality silicone diaphragm, Corona offers flexibility and reliability.

Available both in PC and PCND models

Corona PC

Pressure compensating for accurate flow over a wide range of pressures.

A dripper outlet cover for 26.20 lph models is available to diffuse the stream caused in high flow models.

Corona PCND

Pressure compensating and no-drain function for pulse irrigation applications.
