

Lubricated air compressor belt driven pumps

AB 268

Code: 1129102238

AB 268

Brand: FIAC

Category: Lubricated air compressor belt driven pumps

The AB series distinguishes the oil lubricated twin cylinder compressor pumps with single and two stage belt drive. The Fiac compressor pumps have been designed and tested in compliance with the strictest international standards. Special research has been dedicated to the containment of the noise level and elimination of heat generated during operation.
